Let's be honest—when you hear “OSHA,” your first instinct might be to hide the extension cords and suddenly remember every safety rule you've ever ignored. The good news? It doesn't have to be that way.

Join us for a lively and practical session where we break down the Top 10 most common OSHA violations—a.k.a. the “greatest hits” of workplace safety mistakes. We'll show you where businesses tend to slip up (spoiler: it's usually not just one thing) and how to fix those issues before they turn into expensive learning experiences.

Key Takeaways:

- The Top 10 OSHA violations (and how to avoid becoming “that company”)
- Practical tips to stay compliant without losing your sanity
- What to do—and what not to do—when an OSHA inspector arrives
- How to prepare ahead of time so inspections don't feel like surprise pop quizzes
- Ways to build a safer workplace (and maybe sleep better at night)

Who Should Attend:

Business owners, HR professionals, safety managers, supervisors, and anyone responsible for workplace safety—or anyone who doesn't want a surprise visit to ruin their day. Bring your shop floor folks- they are typically the first ones to see things that can be remedied.

2020 Main St, Suite 210, Irvine, CA 92614
