# LUNCH & TOUR

AT TCI PRECISION METALS

**Regular Member Only Tour;** You must be a manufacturing facility to join us for this event.

**Join us for a free tour of TCI Precision Metals with a networking lunch right after.**

TCI Precision Metals (formerly TCI Aluminum) was founded in 1956 by Burt Belzer and two partners. 70 years later, it is a third-generation led, family-owned business, with a focus on customer partnerships and strong core values. Their motto "Good Parts. On Time. Period." drives their decisions every day to be the best supplier and partner they can.

TCI has been actively involved with the NTMA for over 40 years. During most of this time, TCI's owner's John and Ben Belzer have spent decades volunteering, both as Chapter Presidents of the LA/NTMA and John as the Chairman for NTMA in 2001. Giving back to the industry at large is a privilege and an honor.
