TOUR & LUNCH

GLIDEWELL DENTAL

World's Largest Dental Lab

Want to see inside the world's largest dental facility? Join LANTMA as we tour Glidewell Dental on February 17th from 10am-1pm.

The areas that we will tour include Robot-fed Milling, CNC mills/lathes, 3D printing, manufacturing of titanium dental implants, zirconia mills, dental appliances, production floors where crowns, bridges, dentures and many other products are made. Zirconia press area featuring Komage Press and Nabertherm Ovens, micro-CT scanners that we designed and built ourselves.

Must wear non-slip closed toe shoes. Taking pictures while on the tour IS permitted. The tour will require a good amount of walking as there are 5 buildings that you'll tour.

RSVP's a MUST By February 2. We will not be able to take late registrations.

SPEAKERS

Andy Klein
Sr. Director of Clinical
Education & Events
Glidewell Dental

Andy has worked in dentistry for 25 years. He works with clinicians and an internal education team to provide continuing education courses for dental professionals. He is also responsible for trade shows and is the managing editor of Chairside Magazine, a general dental magazine that reaches more than 90,000 dentists.

Bobbie Norton
Director of Strategic
Partner Relations
Glidewell Dental

Bobbie works closely with key opinion leaders, dental schools and company partners to implement technology in academic settings and orchestrate essential programs like Glidewell's Symposia and Guiding Leaders.
